

REFRIGERATION EQUIPMENTS

For Food, Dairy, Beverage, Chemical & Pharmaceutical Industries

AMMONIA REFRIGERATION SYSTEM

Compressor section

- Various types of Reciprocating and screw compressor
- Single stage for medium application
- Double stage for low application

NH3 Compressor

- Series of reciprocating compressor
- Compressor with loading and unloading devices
- Compressors are designed for partial loading

Series of NH3 Receiver

- Receiver with IS 2062/ IS 515 Material
- Tested With the Hydro for the required pressure
- Receiver with Various Codes

Plate NH3 Condenser

- Software Designed condenser to maintain the Excellent Condensing temperature
- CIP Cleanable on the cooling Water side
- Low hold up Volume

Intercooler

- Common Intercooler for easy handling
- Intercooler will be with the sub cooler on demand

Atmospheric Condenser

- Atmospheric pipe condenser for easy maintenance
- Condenser are available with U bend or with vertical header

IBT Accumulator

- Properly designed accumulator to regulate the flow to the coils
- Supplied with various process controls to monitor the system

Row of Ice Building Coil

- IBT Coils to form the Ice for the process system
- Supplied with Galvanized and painted version
- Proper CAD aided design

ICE Building Tanks

- IBT Tank in assembly
- With steel structural and Civil construction
- Excellent Insulation and the heat loss is minimum

Plate Heat Exchanger Evaporator

- Plate type evaporator with low hold up volume
- Used for Brine, Glycol, Water cooling
- Low approach temperature
- Plate of SS 316/ Titanium
- Gasket CR/HNBR etc.,

LP Receiver

- Well designed LP Receiver depending on the load factor
- Perfectly designed to avoid the liquid carryover
- Receiver with various codes

Hermetic Liquid Pump

- Liquid refrigerant pumps for excellent distribution
- Can work under low NPSH
- Can be with the Hermetic and open type

Freon chilling unit

- Mimi cooling system useful for all the cooling application
- System can be designed with various refrigerant
- With Hermetic, Semi Hermetic and open type compressor

Cold store room

Bulk milk cooler

- The Tank with Rotary Spray Ball Cleaning
- Inner Shell with SS 304 / SS 316
- Well Designed Laser Welded Pillow Plate
- Optimum Heat Transfer with required velocity
- Digital Temperature Controller
- Confirm to ISO 5708 Standard
- Gear Box of internationally known brand
- The Tank has been designed with the Adjustable Ball feet

TAVRON
Engineers

...Think cool

HEAD OFFICE TAVRON ENGINEERS

AF-1 Aiswariyam, 25 A Redhills Road, Kolathur,
Chennai - 600 099, India. Tel:- +91 44 25567211.
